

VCF PNW 2018 Puzzle Contest

Puzzle #1

Place a letter in each box so that each line spells a word related to vintage computers. Lines connect boxes which contain the same letter (not all connections are shown, i.e. unconnected boxes can contain the same letter).

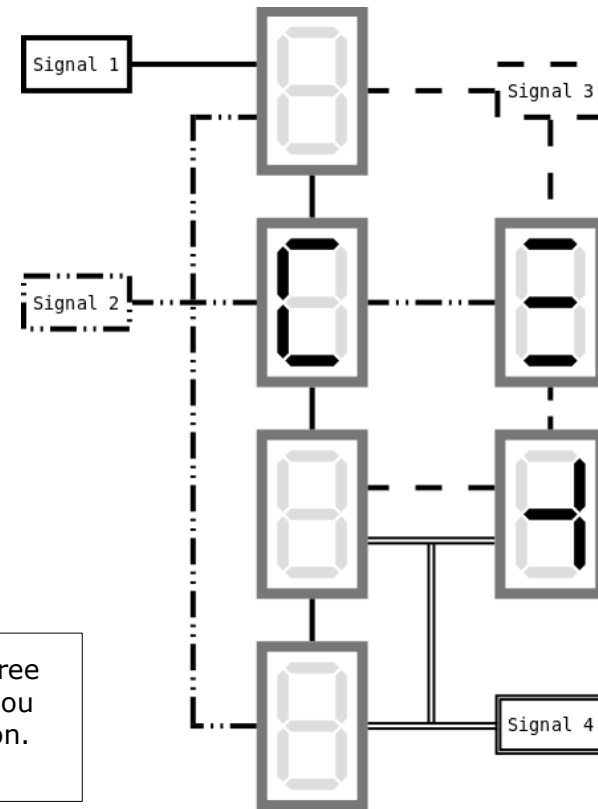

Puzzle #2

This display shows a correct math equation with 8 characters. However, several segments are stuck being always "on" (black). Can you figure out what they spell?

Puzzle #3

Answers to the three puzzles will lead you to the next location. Don't forget ##!
