

INTERNATIONAL SPACE STATION

At most 5 astronauts can be placed on the given wall. Here is their only possible placement.

P	C	U	O	N		W	G
I	Z	H	S	E	A	D	N
	Q	L	V		K	U	S
J	R	E	I	B	M	C	
T	P		X	I	T	E	R
S		D	R	A	G		
O	L	F	E	R	U	C	I
T	H	B		N	L	Y	Y

The answer is read from the letters under the heads of the astronauts (which also have unique arrangement) in natural order: top to bottom, left to right.

As a hint, the rest of the letters under the bodies of the astronauts, when read in the same order, spell a hint: "head letters only".

ANSWER: UNITY
